spider

Versatile, cost-effective, dependable

The Spider's versatility makes winding even the most complex structures... almost simple. This multi-spindle winder allows you endless options and numerous choices of spindle configurations.

- 2 to 4-axes of computer controlled motion
- Standard configuration: 3-8 spindles
- Can accommodate various part geometries

Machine controls – McClean Anderson's user-friendly Flexwind
Software – McClean Anderson's composite designer pattern development software (designs and models complex filament wound structures)
